Operator cum supervisor can inform the resident that this will be used for sharing resident's AADHAAR number with RGI. The resident may already have an AADHAAR prior to RGI process.</p>	Agency (Operator cum supervisor)	
13.	<p>Is Resident's Age < 5yrs?</p> <p>Check if the resident's age is less than 5 years. If yes, proceed to Step 14. Enroll based on parent/Guardian Details</p> <p>If no, proceed to Step 15. Check and Record for any Eye/ Finger Missing</p>	Agency (Operator cum supervisor)	

RFP for Selection of Agencies for Providing Operator cum supervisors and Aadhaar kit on opex model under UCL model (Cat-III) of UIDAI

14.	<p>Enroll based on Parent/Guardian Details</p> <p>In case of children below the age of 5 years one of the parents' or guardian's name shall be recorded and UID or Enrolment Number (either of the two numbers) shall be recorded. This is mandatory.</p> <p>If the child is being enrolled along with his father /mother / guardian, first enroll the parent /guardian and record the parent's enrolment no. in the child's form.</p> <p>If the father /mother / guardian of the child has either not enrolled or does not possess AADHAAR number at the time of enrolment, the enrolment of that child cannot be done unless the above requirements are fulfilled.</p>	Agency (Operator cum supervisor)	
15.	<p>Check and Record for any Eye/ Finger Missing</p> <p>Check resident's eyes and fingers for fitness (missing/amputated). If the resident has any deformities, these also have to be captured on the Demographic screen.</p> <p>Enter Details of "Missing Eye Indication" or "Missing Finger Indication" as appropriate.</p> <p>In such a case, the operator cum supervisor shall assist the resident in the fingerprint capture to avoid capture of the extra finger/s.</p>	Agency (Operator cum supervisor)	

RFP for Selection of Agencies for Providing Operator cum supervisors and Aadhaar kit on opex model under UCL model (Cat-III) of UIDAI

16.	<p>Capture Biometrics - Facial Image, IRIS and Fingerprints Guide the resident to occupy the chair in front of the enrolment station. The resident should be instructed to be seated properly with their back upright and their face towards the camera. The images of all the ten fingers are to be captured. The fingerprints must be captured in the sequence of slaps of four fingers of left hand, right hand followed by the two thumbs. The Operator cum supervisor can visually verify facial image quality. Apart from this in-built quality checks in the software indicate the quality of biometrics at each stage. If any biometric exceptions have been specified on the demographic screen, these should be captured as photographs on the Photograph screen. The software forces re-captures for a fixed number of times when quality is not OK. Afterwards the Operator cum supervisor may try capture again but will not be forced by the system. However, it should be borne in mind that the forced capture should not become harassment for the resident. If required, ask resident to clean hands on towel and/or help to apply little more pressure on hand while taking image again. Similarly, guide resident to get appropriate quality of iris and facial images. Policies for biometric capture: Iris- above 5 yrs mandatory (also used for de-duplication) Fingerprint - above 5 yrs capture Fingerprint - above 15, treated like adult Face - all mandatory including infants Below 5 yrs - guardian/parent mandatory, after that optional Any biometric exception (any finger missing, any eye missing) - extra photo as well as supervisor signature Aadhaar Enrolment/updation Client software automatically takes care of enforcing these policies. UIDAI may, from time to time, make modifications to these policies.</p>	Agency (Operator cum supervisor)	5.1.4 Biometric Data Capture Standards 5.1.5 Detailed Guidelines for Collecting Biometric Data

Verification Sub Process Description

S.No	Step	Responsibility	Reference
	Start It is essential that key demographic data is verified properly.		
1.	Type of Verification 2 Distinct methods of verification are discussed in this document <ul style="list-style-type: none"> Distinct methods of verification Based on introducer system 	Registrar	
2.	Verify Documents Registrar's Supervisor verifying the documents should be a pre enrolled resident. He may be covered during the special drive for Introducers. For Verification based on Documents, the Registrar's Supervisor present at the Aadhaar Centre will verify the documents and sign/stamp the documents as a proof of Verification. If pre-enrolment data is used Registrar's Supervisor will Verify those documents (like Ration Card, NREGA job card etc.). In case Enrolment form is used for filling demographic data, then Supervisor will verify form details against Pol, PoA, DoB documents. Verify Name, Date of Birth, Address against Pol, DoB and PoA documents. Refer Guideline 5.1.3 for list of applicable documents. Verify Name and UID of Parent/Guardian in case of children. Registrar's Supervisor will then sign and stamp the photocopy of documents verified.	Registrar (Supervisor)	5.1.3. Documents for Verifying Pol, PoA and DoB

4.	<p>Store Documents</p> <p>These documents need to be maintained by the Registrar at least for 7 years from the date of capture or as specified by UIDAI from time to time.</p> <p>In case of any legal requirements, Registrar shall furnish necessary documents as required by UIDAI. The Registrar may store documents in either Hard copy or Digitize documents by online scanning during the process of data capture or Digitize documents offline and allot Document Identification Number(DIN) – barcode</p> <p>Registrar to prescribe suitable documentation management system for easy tracking and retrieval of documents. 5.	<p>Paste bar coded stickers on Consent Letter, Pol and PoA</p> <p>To save on online scanning cost and time, a Registrar may opt for offline scanning of documents. If this is the case, the Operator cum supervisor will paste pre-printed bar coded stickers on these documents. The bar code will be read and stored on the Resident file.</p> <p>When scanning of documents will take place at a later stage, then the bar code reader will read the bar code on any of these documents. Pol, PoA documents will then be scanned and attached to the data file of the Resident that is retrieved using Bar code.</p>	Agency (Operator cum supervisor)	
6.	<p>Endorse Resident by giving fingerprint</p> <p>The Introducer will go through all the details to ensure that he endorses correctly. The Introducer ensures that all the residents that he is about to endorse are known and given particulars are correct. The concept of inclusiveness should not take away the credibility of the Introducer system. Any false verification by Introducer shall make him liable for legal action.</p> <p>The Introducer can endorse a resident and vouch for the validity of Resident's information by giving his/her thumb print in the enrolment/updation software's "Review" tab. In addition he/she should sign the Enrolment/updation form endorsing the resident.</p> <p>Introducer will validate by giving fingerprint.</p>	Introducer

A flag is maintained to indicate if Date of Birth (DoB) is verified, declared, or approximate. In case exact DoB is not known, resident should indicate the age only. Enrolment/updation software has the provision to capture age & calculate the year of birth.

* For infants, Father/ Mother/ Guardian's name (at least one) and UID is mandatory.

* For children under a particular age, biometric de-duplication will not be done. Hence their UID will be flagged as such until they are biometrically de-duplicated at a later age. Their UID will be linked to at least one of the parent's UID.

* In the case the adult is not in a position or does not want to disclose, name of either Father/ Husband/ Guardian or Mother/ Wife/ Guardian, select the flag in the enrolment software to indicate that resident has not given the relationship details.

** For residents with no document proof, an "Introducer" should certify his/ her identity.

5.2.2 Detailed Guidelines for Recording Demographic Data

i. Name

1. The Enrolment Agency (Bank) should verify the proof of identity documents produced by the individual before recording the name.
2. The name of the person **in full** should be entered in the boxes provided for this purpose. Leave single box between two separate words.
3. It is very important to write the person's name very carefully and correctly. For example, the respondent may tell that his name is V. 5. In case of difference in the name declared and the one in document (Pol), the name as declared by the resident may be recorded by the Enrolment Agency provided the difference is only in spelling.
6. If two documentary proofs produced by the enrollee have variation in the same name (i.e., with initials and full name), the enrollee's preferred name should be recorded.
7. Sometimes the infants and children may not have been named yet. Please try to ascertain the intended name for the child by explaining to the enrollee the importance of capturing the name of the individual for allotting UID.
8. In case of non-availability of supporting documents for Pol, the name should be recorded with the assistance of the Introducer.

5.2.5 Detailed Guidelines for Collecting Biometric Data is as per UIDAI guidelines.

5.2.6 Handling of Exceptions

There would be instances where the enrollee would not be in a position to give complete set of biometrics as required by the UIDAI owing to reasons such as injury, amputation of the fingers / hands and similar problems with the eyes. The following sets of guidelines are to be borne in mind while handling such exceptions.

i. Exceptions in capturing Facial Image capture

S.No	Problem	Suggestions
a.	Unable to capture image due to poor light:	a. No flash is to be used b. Contact the local state government authorities to improve the ambient light. c. If there is inadequate lighting because of low voltage, use the generator backup to improve the lighting. d. Consider moving the enrollment station to a location in the room with better light. e. The non-capture could be because of bright light behind the backdrop. The backdrop should be preferably placed against an opaque wall / partition.
b.	Unable to crop image because of turban / head scarf:	a. If it a strict religious attire, choose the manual capture option. b. If the headgear can be removed this may be requested politely by the operator cum supervisor. c. In the case of lady enrollees, it would be advisable for a lady operator cum supervisor, or volunteer to undertake this process.
c.	Enrollee unable to keep head / torso still and vertical :	Assistance may be provided to the enrollee. In case of lady enrollees, assistance is to be provided by the lady operator cum supervisors or volunteers.

ii. Exceptions in handling Fingerprint image capture

S.No	Problem	Suggestions
a.	Missing / amputated / bandaged fingers	i. The same is noted in the data as provided in the software ii. The fingerprints of remaining fingers are captured by the operator cum supervisor.

RFP for Selection of Agencies for Providing Operator cum supervisors and Aadhaar kit on opex model under UCL model (Cat-III) of UIDAI

b.	Unable to crop image because of turban / head scarf:	<p>i. If it is a strict religious attire, choose the manual capture option.</p> <p>ii. If the headgear can be removed this may be requested politely by the operator cum supervisor.</p> <p>iii. In the case of lady enrollees, it would be advisable for a lady operator cum supervisor, or volunteer to undertake this process.</p>
c.	Fingerprint captured is not of the requisite quality	<p>i. If standard image of the finger prints are not possible for an enrollee despite repeated attempts, the operator cum supervisor should politely ask the enrollee to wash his hands. The operator cum supervisor can provide a wet sponge or towel available in the Centre.</p> <p>ii. The operator cum supervisor can request the enrollee to apply pressure on the platen to increase the area of contact and thereby obtain image of the requisite quality.</p> <p>iii. For applying pressure he would firstly rely on efforts of the enrollee. If not successful, the operator cum supervisor can take the permission of the enrollee and assist her/him in applying the pressure to capture the image.</p> <p>iv. It has to be ensured that assistance to women enrollees has to be provided by women operator cum supervisors /volunteers.</p> <p>v. The operator cum supervisor would make a reasonable number of attempts to capture the biometrics of the resident. The number of attempts that can be made is built into the software.</p>
d.	Inability to flatten the fingers	<p>i. The operator cum supervisor with due permission from the enrollee may assist the enrollee in order to attempt capture of the fingerprints.</p> <p>ii. In case this is not successful, the operator cum supervisor may try to obtain fingerprints to the extent that the enrollee is liable to flatten and place her / his fingers on the platen.</p> <p>iii. The enrollee can then be made to move to the next set of fingerprints of the other hand or the two thumbs.</p>
e.	Worn out ridges or hands blackened through mehendi or any other substance	<p>a. Attempt a manual capture</p> <p>b. Proceed to capture fingerprints of fingers which are not blackened or without worn out ridges.</p>

RFP for Selection of Agencies for Providing Operator cum supervisors and Aadhaar kit on opex model under UCL model (Cat-III) of UIDAI

III. Exceptions in handling Iris Image capture

If capturing Iris image is not possible due to non-existence of one or both eyes or bandage across one or both eyes / any other deformity or disease the same has to be recorded in the system.

S.No	Problem	Suggestions
a.	Squint / disoriented	a. If the capture of both eyes at a time is not possible, the single eye iris scan device may be used. b. In case the single eye iris device is not available, the operator cum supervisor can make use of the dual eye device to capture one of the irises correctly.
b	Inability to open the eyes properly	a. Guide the enrollee to open the eyes wide to enable the capture b. Manually assist the enrollee to open the eyes with the help of his own hands so that the iris can be Scanned.

IV. General exceptions

The enrollee may not be in a position to keep herself / himself in correct posture for reaching biometric instruments or for photograph due to old age or sickness. In such cases the operator cum supervisor should arrange to take the biometric data by moving the equipment close to the enrollee.

The format for Enrolment Form, Acknowledgement slip and Consent Slip shall be prescribed by the Registrar / UIDAI.
